## Our class texts...

## Key Learning this term...

In Maths this term we will be continuing to learn more about multiplication and division and then moving on to study fractions. We will also look at measurements of length, mass and capacity.

Our literacy for the first half of the Spring term will be based around Michael Morpurgo's modern classic *Kensuke's Kingdom* - a fantastic story of a young boy's journey around the world on a small boat.

Our science lessons will be on the subject of nutrition and the human skeleton. We will also be studying history: learning about the stone age, bronze age and iron age.

We will continue to learn about computing, French, religious education and personal, social and health education each week with a range of topics being covered.

For PE we will resume swimming each Wednesday afternoon - starting next week - and will also be benefitting from some expert hockey coaching on a Monday afternoon through the Rural Derbyshire School Sports Partnership.

On Monday 22<sup>nd</sup> January we are inviting parents in to have a look through their children's books and catch up with teachers - straight after school.

## Reminders...

PE kits should be in school at all times. They will be sent home at the end of each half term for a wash but should be brought back on the first day of the new term. Swimming will continue on Wednesday afternoons.

Homework and spellings will be sent home each week. Please remind children to complete the activities and learn their words. Children should also read at home to an adult at least three times a week- please record this in their reading records.

## Recommended Read!

Thomas Taylor's *Malamander* is a gripping fantasy adventure set in the curious seaside town of Eerie-on-Sea. One of the best children's books of recent years in my view, with a series of sequels also now available.
